STORY

EPK / BIO

"You'd be hard pressed to find such a versatile and imaginable artist anywhere else. His immense vocal range and precise playing ability is a testament of his own discipline within the craft of songwriting." -Chuck Ragan

"Austin Lucas is a songwriter's songwriter. With a voice that falls between God-given and refined by years of training, it bleeds tradition and adds gravitas to his words." -PopMatters

"Austin Lucas has a slippery voice and a cracked heart and is teeming with palpable anger and sadness, and sometimes he doesn't sound as if he can bear it. But he's not a reluctant singer. He peeks through. Emotionally, though, he's shaky. He's on the verge of collapse." -NY Times

"Austin Lucas has taken a sharp learning curve over the course of his career, transitioning from a journeyman troubadour to an insatiable songwriter who pours his heart and soul into each of his offerings" -No Depression
